# Challenger Cubicles - Technical Specifications

New Challenger cubicle hardware is the most comprehensive range of cubicle fittings available in the UK. Designed using the latest solid works 3D design and modeling software Challenger combines aesthetics with quality, durability and reliability.

## INDICATOR BOLT

The 'anti vandal' indicator bolt comes as standard with hidden fixings. With no visible fixings the indicator bolt has been designed with security and safety in mind and therefore attracts almost no attention from vandals

The user-friendly handle makes operation for children and the elderly easy as they can slide the smooth, rattle free shoot bolt without difficulty.

## HINGES

Strong and durable wrap around hinges suitable for left and right hand opening doors feature fall open or closed cammed door hinges.

The nylon hinge risers ensure the the door opens and closes smoothly and quietly without troublesome sticking and squeaking

## HEADRAIL

A wide selection of headrail sections are available to compliment the unique design of the challenger.

All headrails can be finished to match hardware

## PARTITION SUPPORTER

The attractive partition supports are strong and fully adjustable for uneven or falling floors and feature easy to fit foot block supplied with floor fixings to reduce the time spent on site and save money
