

Fittings

Childsplay Fanfare Range

The Childsplay range is designed especially to brighten up children's. The range is fully colour coordinated and designed to fit 19-21mm panels .

Headrail

Any headrail gives added strength to cubicles, and this commonly chosen design in a matching bright blue finish provides more than ample strength for children's cubicles.

Indicator Bolt

Features a bright yellow coloured radius faceplate and an emergency release mechanism with colour coordinated knob and shoot bolt. The indicator bolt also comes with the option of a fun clown faceplate with smiley face.

Hinge

The red and blue Childsplay hinge is strong, reliable and incorporates a single blue fixing through the fascia. The hinge has an anti finger trap design to prevent curious children injuring themselves and it is easy to fix and does not require factory pre-drilling

Partition Support Leg

The brightly coloured red and blue slim line support provides height adjustment to accommodate commonly found falling floors. The floor fixings are concealed well away from inquisitive children.

Bracket

Brackets supplied in packs of three - one red, one blue and one yellow, complete with matching fixings and bush bolts.

Toilet Roll Holder

Bright yellow sprung loaded roller, which is supplied with fixings for face fix or through fix completes the finishing touch to the bright cubicle.

Coat Hook

Bright yellow coat hook, supplied with fixings and a rubber buffer to prevent damage to walls and partitions.
