

## Vanity Units

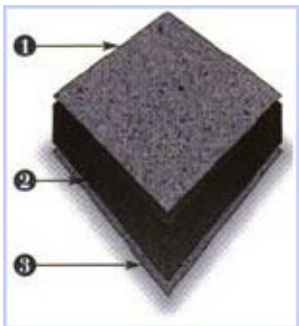

Vanity Units are the perfect compliment to the Bridgewater range of cubicles.

These vibrant units offer a stylish finish for housing wash basins, and feature an integral up-stand and down-stand. Access panels are secretly fixed using push-on or hang-on 'Keku' clips, which enable easy access to pipe-work for initial installation and future repairs.

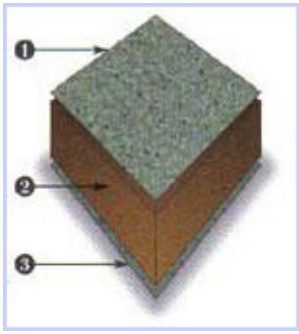

Various colour schemes are available, and units are supplied in laminated MDF or compact grade laminate.

## Technical Specifications

### Compact Grade Laminate

1. Décor paper impregnated with melamine resin.
2. Black phenolic core, composed of layers of resin impregnated kraft paper.
3. Décor paper impregnated with melamine resin

## Melamine Faced High Density Particleboard

1. Décor paper impregnated with melamine resin.
2. Chipboard core.
3. Décor paper impregnated with melamine resin

## Moisture Resistant Laminate Faced High Density Particle board

19mm Moisture Resistant Laminate Faced High Density Particle Board is used where vandalism is not a likely problem. All visible panel edges are lipped with an impact resistant PVC edging. Due to material constraints, we recommend that the maximum length of any one unit is set at 3000mm.

## Compact Grade laminate

Compact Grade laminate offers the best performance in environments which demand a durable, long lasting product. One of the most important features of compact grade laminate is its resistance to water. All panels are 13mm thick, feature a polished black edge, and are completely impervious to water.. In addition, vanity tops also come available in compact grade laminate to a maximum length of 2500mm.

## Fixings

The use of secret 'Keku' fixings offer an excellent deterrent to vandalism, with the option of push-on clips, which can only be removed using specialist plumbing equipment.

## 'Bridgewater' - Committed to Quality

When you specify Bridgewater 'Fanfare', you are investing in a name you can trust to deliver quality, service and value for money. We pride ourselves on offering a concise and accurate service. Our sales staff offer a single point of contact, from quotations stage, order processing, guidance for site installation, and after sales service. We have over 10 years experience in the washroom system industry supplying every different type of commercial project.
